UX Strategy & Information Architecture

Portfolio website for Sandeep N Vijay. Names, projects and targets below are dummy content for review, so replace them with real details. Prepared November 10, 2026.

Strategy at a glance

The site helps hiring managers and recruiters judge Sandeep's product and visual design range within minutes, then contact him about a full-time role.

Goals and success measures

Goal	Measure	Target (dummy)
Visitors reach a case study from Home	Click-through from Home to a case study	50% of visits
Any project is quick to find	Clicks from Home to any project	2 or fewer
Visitors take a hiring action	Resume downloads plus contact clicks	15% of visits
The site feels fast	Largest content paint on mobile	Under 2.5 seconds

Audience

Persona (dummy)	Needs	Time on site	Key action
Maya, recruiter at a product company (primary)	Quick proof of role fit and a resume	1 to 2 minutes	Download the CV
Arjun, design lead (primary)	Process, outcomes and visual craft in case studies	5 to 10 minutes	Get in touch
Priya, design peer (secondary)	Inspiration and craft details	3 to 5 minutes	Browse Creative Works

Positioning (dummy)

Sandeep designs products that feel considered and brands that look unmistakable. Three pillars support this: product thinking, visual craft, and range across UI/UX and creative work.

Content strategy

- Lead with 3 to 5 featured projects, with equal weight on UI/UX and creative work
- Open every case study with a short problem, solution and outcome summary
- Show creative work image-first, with role and year on every piece
- Write in plain, direct, first-person language

Information architecture

Sitemap

- UI/UX Projects
  - Case study: Banking app redesign (dummy)
  - Case study: SaaS dashboard design system (dummy)
  - Case study: Food delivery onboarding (dummy)
- Creative Works
  - Brand Identity
  - Social Media Creatives
  - Digital Artwork
  - Posters & Campaigns
  - Motion & Video
  - Other Explorations
- About
- Resume
- Contact

Page inventory

Page	URL (dummy)	Purpose	Key content	Primary action
Home	/	First impression	Intro, featured UI/UX and creative work, short about, contact prompt	Open a project
UI/UX Projects	/ux	List the case studies	Cards with role, year and outcome	Open a case study

Page	URL (dummy)	Purpose	Key content	Primary action
Case study	/ux/[slug]	Prove process and impact	Summary, facts row, problem, process, results, next project	Contact or next project
Creative Works	/creative	Browse the visual collection	Category filter and tile grid	Open a piece
Category	/creative/[category]	Filtered view of one category	Tiles for that category	Open a piece
About	/about	Story, skills and experience	200-word bio, skills, experience timeline	Contact
Resume	/resume	Share the CV	Preview and PDF download	Download
Contact	/contact	Make it easy to reach out	Email, social links, short form	Send a message

Navigation

- **Primary:** UI/UX Projects, Creative Works, About, Resume, with Contact as a button and the wordmark linking Home
- **Footer:** every page plus social links
- **Case studies:** breadcrumb and previous/next project links
- **Mobile:** a menu with the same items in the same order
- **Labels:** plain nouns that match the page titles

Content model

Content type	Fields
Case study	Title, slug, role, year, timeline, tools, summary (problem, solution, outcome), cover image, sections, featured flag
Creative piece	Title, category, year, role, image or video, caption, featured flag

Content type	Fields
Profile	Name, title, bio, skills, experience, resume file, social links

Key user flows

1. **Recruiter:** Home, then a featured project, then its case study summary, then Resume download
2. **Hiring manager:** Home, then UI/UX Projects, then a case study, then Contact
3. **Design peer:** Home, then Creative Works, then a category, then a piece in the lightbox

Home page content hierarchy

1. Name, role and one-line positioning
2. Two to three featured UI/UX case studies, each with a one-line outcome
3. Three to four featured creative tiles
4. Short about with a link to the full page
5. Contact prompt and resume button

Open items

- Replace the dummy projects, personas, positioning and targets with real ones
- Confirm the URL structure and the build approach
- Decide whether the sitemap should be redrawn as a diagram
